Features & Benefits

DENALI PAYROLL

Save Time and Money

By linking your Denali Payroll 5 account to TSheets, you can easily track, approve, and sync employee times for payroll, saving hours each week and thousands of dollars each year in payroll costs.

- Sync time data with TSheets for faster payroll processing.
- Attach any kind of file to employee records.
- Automate PTO & accrual tracking.
- Track time from any location, using any device.

Strong Internal Controls

- Customize options to make adjustments to payroll benefits, deductions, and taxes.
- Pay employees who work in multiple states.
- Use a secure audit trail to keep activity from being hidden.
- Manage overtime costs with alerts.
- Easily track and forecast labor costs.

Grow Your Business

With this Denali release, we added new features that, based on customer feedback, should be very useful to you. We introduced several features with Denali 5.

TSheets is a time and attendance tracking program that integrates with Payroll. Your employees clock in and out through TSheets and when you want to run payroll, you import the hours into Denali. You can now integrate Denali and TSheets to process your payroll and and track your employee's time faster and more effieceintly than ever!
